

BATTLEZONE[®]

98 REDUX

Installing mods in Battlezone 98 Redux for Mac.

Mods can be obtained from the Steam Workshop, directly from creators or from other community members.

- 1 - Download the mod you want through the Steam Workshop.
- 2 - Use the Go button on the top bar.
- 3 - Then use "Go to Folder..."
- 4 - Search for ~/Library (This will basically take you to your users root directory).
- 5 - Scroll down to a folder named Containers and enter it.
- 6 - Scroll down to a folder named com.rebellioninteractive.bz98reduxodyssey and enter it.
- 7 - Enter the Data folder.
- 8 - Enter the Documents folder.
- 9 - You will need to create a new folder named mods.
- 10 - Drag and drop (or copy and paste) your chosen mods folder into your new mod folder.
- 11 - Launch the game.
- 12 - Access Mods section on the Main Menu screen.
- 13 - Activate your mod in the list.
